Industry 4.0 automation opportunities

Most of the orders in hand are long orders, and the visibility can be seen to next year, including orders for Netcom, Panel PC, digital signage, rugged tablets, industrial Internet of Things, AI, smart power stations and charging piles it is estimated that the overall revenue and profit will have a relatively high growth rate

Including t, inflation, interest rate hikes, hidden worries of economic recession, and the continuation of the Russia-Ukraine war, etc., there are many disturbances to the global economy, and they are the biggest variables at present °
