IBASE Technology Inc.

Manufacturing Industry

“ IBASE is built on the corporate cornerstones of “teamwork, sharing, innovation, efficiency, and service” that hold the key to its competitiveness and continuous growth. ”

Information about the Company and Brand

IBASE Technology Inc. (IBASE) specializes in the design and manufacturing of robust industrial PC products, delivering high quality and excellent service since its establishment in 2000. IBASE carries out manufacturing and quality control at its own facilities in Taiwan that are certified with ISO 9001, ISO 13485, ISO 14001, and ISO 27001 standards. Its current product offerings comprise x86- and RISC-based industrial motherboards, embedded systems, panel PCs, digital signage players, and network appliances for applications in the AIoT, industrial automation, smart retail, intelligent transportation, networking & communication, and medical sectors. The company is publicly listed on the Taipei Exchange (TPEX: 8050) and is now a leading global provider of innovative industrial and embedded computing products. IBASE is built on the corporate cornerstones of “teamwork, sharing, innovation, efficiency, and service”. These hold the key to IBASE’s extraordinary competitiveness and continuous growth. As a team, IBASE is committed to consistently providing

products and services of the highest quality to generate a win-win outcome and a stronger bond with customers.

Company Culture & Company Activities

IBASE has three manufacturing sites in Taiwan, with two in New Taipei City and another one in Taoyuan City. The company designs, manufactures, and implements strict quality control to supply excellent industrial computer products that are 100% made in Taiwan. In addition to off-the-shelf products, IBASE also specializes in ODM/JDM and design-in full design services, tailoring products to fully meet customers’ expectations and the needs of various applications. With manufacturing and quality control capabilities recognized by major international companies, IBASE boasts strong innovative R&D teams and flexible and timely product delivery. The R&D team is staffed with talented electronics, layout, system, mechanical, hardware, BIOS, firmware as well as software engineers. With accumulated expertise, the R&D team can create new products for the demanding and dynamic market and faithfully meet the specific requirements of customers within the shortest period. Furthermore, IBASE complies with relevant environmental laws, regulations, and international standards to protect the environment and fulfill its corporate social responsibility, integrating social, environmental, and ethical concerns in business operations and sustaining the environment for the current and future generations.

“With over 20 years of knowledge and experience accumulated in the industry, IBASE has developed innovative core technologies that enable it to create innovative, advanced, and competitive products and provide customers with the best solutions.”

Achievements & Impact

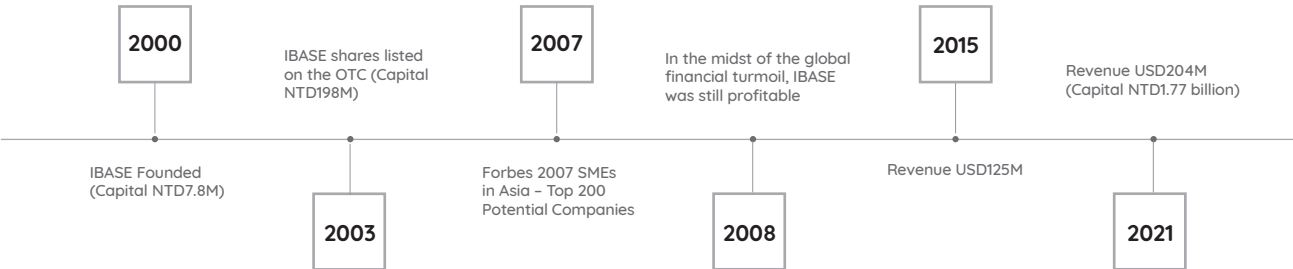

IBASE is a global company with headquarters in Taipei, Taiwan, and six subsidiaries with over 860 employees based in Taiwan, Japan, China, Singapore, Italy, the UK and US. The company's 2021 turnover grew to USD204 million with a CAGR of 26% since its inception in 2000. Moreover, its 2021 growth rate is over 40% year over year. With more than 20 years of accumulated industry knowledge and experience, IBASE has developed innovative core technologies that enable it to create innovative, advanced, and competitive products and provide customers with the best solutions. IBASE attaches great importance to teamwork and effective communication to facilitate cooperation among employees at all levels. The company has long been committed to cultivating talents and building a diversified database while encouraging all employees to work together toward the same goal. IBASE values the cultivation and retention of talents, which is crucial to the sustainable operation of the company. It will continue to participate in public welfare activities, promote corporate social prosperity, and develop green products to reduce the negative impact on the environment.

Future Direction

IBASE is a Titanium-level member of the Intel® Partner Alliance. Through long-term cooperation with internationally renowned manufacturers, IBASE has continuously improved its technological expertise and upgraded its quality control capabilities, expanding its market coverage and building its reputation day by day. IBASE continues to sign up for various product competitions held at home and abroad to enhance its brand image through awards it has received. By 2021, the company has garnered 33 local and international awards. It has earned three awards from the renowned German iF Product Design Awards and 19 recognitions from the Taiwan Excellence Awards organized by the Ministry of Economic Affairs. IBASE affirms its commitment to upholding high standards of corporate governance to safeguard shareholder rights and create business value for sustainable operations while fostering company growth and profitability and creating value for stakeholders and society.
